U. S. AREA PUT ON WAR BASIS SENATE CLASH ON RUSSIAN POLICY EXPECTED

MAY COME UP TODAY FOR A TEST BALLOT

Johnson Plans to Demand Statement Regarding Government's Attitude

Some Senators Seek Formal Recognition of the Omsk Faction

WASHINGTON — The first test of strength between senate Democrats and Republicans may come Friday, over Senator Hiram Johnson's demand for a statement of Russian policy.

Johnson expected to call up his resolution on this subject which Democrats blocked Tuesday. He is determined to force discussion of the question and get a vote on the resolution, if possible, and will demand a roll call if Democrats oppose him.

Some Republicans last session opposed Johnson's efforts to force a Russian statement from the government. If they vote with Democrats Friday, the administration forces probably will be able to send Johnson's resolution to the foreign relations committee.

Senators Poindexter and King are prepared to keep the Russian discussion going, if Johnson should be defeated. Poindexter has a resolution, demanding an explanation of the American military policy and King wants formal recognition of the Omsk government and deportation of Bolshevik agents from the United States.

LEAGUE FIGHT

Opening of the attack on the amended league of nations covenant is also scheduled for Friday, if opportunity is given.

Senators Sherman and Reed have prepared speeches denouncing not only the league, but certain features of the peace settlement.

Sherman will offer a resolution to separate the league covenant from the treaty so that the peace settlement may be ratified and made effective and longer time given to consider the advisability of the United States joining the proposed league.

The house appropriations committee continued its work on money bills. It took up the \$15,000,000 Indian bill, in an effort to report it for passage during the day. As soon as this is disposed of, the District of Columbia bill will be acted on. Early next week, the committee is to take up the railroad financial ends. A bill appropriating \$1,000,000,000 probably will be reported.

FIVE HUNDRED OF 4,000 OBJECTORS HALED TO COURT

113 of Men Sentenced to Military Prisons Released, Report Shows

WASHINGTON, D. C.—Slightly less than 500 conscientious objectors out of a total of approximately 4,000 have been court-martialed as a result of their refusal to perform their military obligations during the world war. It is shown by reports here.

Of those court-martialed and sentenced to varying terms in military prisons 113 were released under the order of Secretary of War Baker on Jan. 16 "extending clemency in the form of remission of the unexecuted portions of the sentences of the offenders, honorable restoration to duty, and their immediate discharge from the United States army."

These men received full pay even for the time they spent in prison and are eligible for the \$50 bonus which may be claimed by all honorably discharged soldiers and sailors.

In the case of other conscientious objectors who have since been released, however, no pay has been allowed for the period spent in prison. To the discharge of all conscientious objectors has been added the remark: "This is a conscientious objector who has done no military duty whatsoever and who refused to wear the uniform."

THESE BE TROUBLESOME DAYS FOR OLD KINGS AND AUTOCRATS

SUCCESS IS NOT GAINED

Salvation Army Campaign Continued Thru Week As Quota Is Far From Being Reached In City

So far Lima and Allen county have not made a success in the Salvation Army campaign. This was demonstrated last night when the figures were placed on the big bulletin board at Memorial Hall.

Altho all workers had not reported, the total stood at \$23,881 from regular subscriptions in the city with \$1,205.30 reported from the sale of doughnuts. A report from the rural districts was not available. One ward in the city did not have a report. This had a quota of \$5,000 and it is expected when these workers report the sum will be approximately \$30,000 or more.

The campaign is not over. It had been hoped that it could be called finished, but after the total was compiled it was determined to "carry on" the remainder of the week. The canvassers will report at a luncheon at Memorial Hall Saturday. By this time it is hoped the territory will be thoroughly covered and the goal attained.

Only four precinct teams went over the top. They were those led by Robert H. Negley, Joseph Cowan, Lieut. W. B. Wilcox and James Schenk. Negley, who raised a large sum, gave all the credit to three women, Mrs. May Bolger, Mrs. R. E. Ashley and Miss Rose Rosenbloom.

The meeting last night was full of enthusiasm. It resembled a gathering of a campaign just starting rather than one that had been in full swing several days. The address of Mrs. Col. Standish, head of all Salvation Army industrial work, was the feature of the evening. In a touching way the speaker told of the great work being done and was profuse in her thanks for the assistance being given in Lima. Brigadier Samuel Withers, Cleveland, added his thanks in a few remarks.

District Chairman A. W. Wheatley in reply to the address of Col. Standish, told the audience that the local unit of the Army would be in its own barracks in one year. The money being raised is to build a new home.

The report of Mrs. Luah M. Butler on doughnut day brought forth rounds of applause. The work of the women on this occasion was said to be on a par with any in the country.

VETERAN OIL MAN, J. R. SINCLAIR, IS CALLED BY DEATH

Stroke On Train Six Days Ago Cause of Death — Had Big Holdings

J. R. Sinclair, 69, wealthy oil operator of Lima and identified with the largest independent oil interests in the country, died Thursday night at his home 536 west Market street at 7:40 o'clock.

Six days ago Mr. Sinclair was stricken with a stroke of apoplexy while returning to Lima from a business trip to the fields of Oklahoma. He was brought home and every effort to save his life was made.

Recently he had suffered from heart trouble and about a month ago consulted with Dr. Griewe, specialist of Cincinnati, regarding his condition.

Mr. Sinclair was one of the owners of the old Sinclair and Morrison boiler works at Eureka and Main streets under which title it operated until its sale. His oil interests were at the start confined to the state of Pennsylvania, but later he was connected with the industry here in the oil boom days.

With the passing of the crest of the industry here he opened fields in Texas, Oklahoma and Kansas.

Business interests in Lima claimed much of his attention and he was formerly connected in the Old National Bank as director in association with the late J. C. Thompson, retired veteran banker, who died recently. Later he was identified with the Lima Trust company also in the capacity of director. He was the owner of the Shawnee stock farm.

Mr. Sinclair was born in Hutton, Maine, August 24, 1849. In his youth he moved to Pennsylvania, coming to Lima in the early days of the oil business. At the time of his death he maintained a summer home at his birthplace.

Mrs. Sinclair died about eight years ago and since that time Mr. Sinclair has made his home with his son, Albert, and daughter Mrs. Beam.

Yanks Prepared to Fight If Foe Rejects Treaty—Germans Go to Spa For Further Instructions

Berlin's Proposed League of Nations Plan Turned Down—Enemy May Change Counter-Suggestions

COBLENZ.—Redistribution of American forces in the Coblenz bridgehead area as a precautionary measure in the event the Germans refuse to sign the treaty has been practically completed.

These soldiers have been stationed at various vantage points and everything within the American area has been placed on strictly a war basis. All sales of non-military property to the Germans were suspended and regulations against fraternization were strictly enforced.

AUSTRIAN TREATY TERMS ARE TAKEN UP BY BIG FOUR

PARIS.—The big four Friday discussed the military and prisoner of war terms of the Austrian treaty. The reparation section of the pact was completed at Thursday's meeting.

A decision was also reached Thursday to withhold action in the armed disputes between the Poles and Ukrainians over territorial matters until Premier Paderewski's arrival, expected Saturday or Sunday.

Charles R. Crane, after a consultation with the American commission Thursday, was ordered to the Near East to investigate the entire mandatory problem in Constantinople, Syria and other territories.

Foreign Minister Brockdorff-Rantzau and five other members of the German delegation left for Spa again Thursday night, to confer with members of the German government.

GERMANY'S PROPOSED LEAGUE PLAN REJECTED BY ALLIES.

The committee appointed to consider the Germans' proposals regarding the league of nations, has replied that it considers the present covenant more practicable than the German plan, altho adding that some of the Germans' suggestions can be considered when the league is finally organized.

Regarding the proposed international mediation office, the committee said that no such body would have the authority necessary to settle disputes. The allies' reply expressed sympathy with the idea of a system of impartial conciliation commissions, but pointed out that the covenant does not prevent this. Proposals regarding composition and procedure of the permanent international court will be submitted to the league council.

The committee said, in regard to obligatory arbitration, that its universal applicability was impracticable.

"We are glad to note the German government favors disarmament," the reply concluded.

FOE MAY CHANGE.

BERLIN.—(Thursday.) — Alteration of Germany's final counter-proposals was undertaken here Thursday, following receipt of information that the allies had granted extension of the time limit for discussion of the peace treaty.

Unconfirmed reports were in circulation that Foreign Minister Brockdorff-Rantzau, head of the German delegation, has expressed his disapproval of the German government's suggestions regarding change of the counter-suggestions.

The Berlin workmen's and soldiers' council, at a plenary meeting late Wednesday, passed resolutions demanding that the treaty be signed and appealing to the entente proletariat.

SHOWS FIRM FRONT

WASHINGTON—General Pershing, in withholding homeward movement of the fourth and fifth regular army divisions, from the army of occupation, is taking precautionary measures and showing the Germans a firm front in the face of their threats not to sign the peace treaty, according to the general belief here.

Marshal Foch, it is understood in Washington, is still supreme commander of the allied forces in France and is ready to march into Germany should events make such a step necessary.

Withdrawal of the fourth and fifth divisions from the army of occupation, in accordance with announcement several days ago that they had been released to prepare for their return home, would have left but three American combat divisions in France—or Germany—not released for, or actually assigned to early convey. The three divisions the veteran first, second and third regular army units—comprise only about 75,000 men. With them are other units required for a complete occupational army.

"HANDS OFF" IS POLICY ON DRY MEASURE

Congress Not Inclined to Follow Wilson in Repeal Proposal, Report

Prohibition Leaders Plan for Enactment of Enforcement Laws

WASHINGTON — Congress—so far as the rank and file is concerned—appears anxious to pursue a "hands off" policy toward President Wilson's recommendation for repeal or amendment of the war-time prohibition act, insofar as it applies to wines and beers.

While there will be bills—probably offered by Democrats—to carry out the president's wishes, a majority of Democrats indicate they are unwilling to follow him and the Republican leaders say they see no reason for agitating the question. Some indication of what course the two parties will take will follow the expected introduction of a bill by Senator Phelan, California, to repeal the act.

The prevailing belief is that the recommendation will never be reported out by a committee.

HOSTILE GROUND

In the house, should the repeal be assigned to the agricultural committee which reported the original act, it would find hostile ground, as most of the members are from farming states which have been dry for years. Ranking Minority Member Lever, however, who pushed the act, is inclined to side with the president's view that the measure was passed as an emergency to conserve food and was not intended to be enforced after the emergency passed.

Meanwhile Chairman Volstead, of the house judiciary committee and other dry leaders are preparing legislation to enforce prohibition.

Eleven Bodies Taken From Wrecked Plant at Cedar Rapids

CEDAR RAPIDS, Ia.—(2:30 p. m.)—Thirty-two persons are now thought to be dead in the fire which Friday night destroyed the Douglas starch plant here. The 11th body was taken from the ruins of the wrecked plant at noon Friday. It was charred almost beyond recognition.

Company officials Friday admitted 21 persons are missing. These persons are believed to be dead as no one could survive the terrible heat created by the flames which enveloped the plant, it was said.

As soon as the ruins cool, probably late Friday, a thorough search of the debris will be made.

KAISER CASE LAGS

Allies Await Treaty Ratification to Push Trial

PARIS.—The world must wait several months for the trial of Wilhelm Hohenzollern, providing he is brought into court at all, it was revealed Friday.

The allies will not take any steps until the treaty is ratified, it was stated on good authority, and even then there will doubtless be considerable negotiation with Holland regarding extradition.

The Dutch delegation here, headed by Foreign Minister Van Karnebeek, Friday confirmed recent United Press dispatches from Holland that the question of the former kaiser's extradition has not been officially considered so far and will not be until the allies submit a formal request.

NON-SUPPORT CHARGE AND DIVORCE SUMMONS SERVED

Franz Thompson, 152, Dana avenue, Thursday had the unusual experience of having a warrant for non-support and a summons in a divorce suit served at the same time by Sheriff Baxter. Thompson's wife, Zora O. Thompson, filed suit for divorce some time ago on the grounds of gross neglect of duty.

Mrs. Thompson also asked in her petition that she be granted alimony for the support of herself and child, Alicia O. Thompson. The divorce suit will be heard in common pleas court in a few days. Meanwhile Thompson is being held pending the action of the next grand jury.

Cheaper Cuts Are Good When Cooked Right, Experts Declare

Beef has gone up 2 to 3 cents a pound wholesale in the last month. This means another setback to families trying hard to cut living.

One way to meet the problem is to use more of the cheaper cuts, say home economic experts. Their food value is practically as great and the flavor just as good if properly prepared.

Ohio State University, in a bulletin on "Meats and Meat Substitutes," gives these directions for a home-made fireless cooker, which can be used in reducing fuel costs in cooking the cheaper cuts of meat:

Pack an ordinary box with ground cork, newspaper or some other heat-retaining material. Then if provided with a galvanized iron can and covered with galvanized iron sheeting, it will be perfectly sanitary. Soapstones may be obtained to fit the top of the can.

Here are meat bill saving recipes, supplied by Miss Adelaide Van Duser, school domestic science supervisor.

POT ROAST: Brown a piece from

FATHER HELPING ALL HE CAN

Two of my sons are in the war. I am doing all I can to help my country, as well as May's Wonderful Remedy, which I can thank for my present good health. I suffered 5 years with most serious stomach trouble and bloating. Am recommending it to all sufferers. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Hunter's two Drug Stores, Butler's two Drug Stores, Red Cross Pharmacy and Druggists Everywhere.

the face of the ramp on all sides. Put in an iron kettle and half cover with water. Simmer until tender, about 1 1-4 hours to the pound. Turn meat over when half done. Season with salt and pepper to taste.

MOCK DUCK: Spread a flank steak with stuffing made according to any good rule used for fowl. (This uses up stale bread.) Roll up like a jelly roll and sew in shape. Brown on all sides in a little fat in a spider. Pour over it enough water to half cover and cook in oven until tender, about 45 minutes to the pound. Season gravy to taste.

WORKERS' MEETING WILL BE HELD AT LIMA CLUB

Leaders in the Salvation Army campaign announced late Friday afternoon that the luncheon which was to have been held at Memorial Hall at noon Saturday when the final reports will be made will be held at the Lima Club at 12 o'clock. This change was necessary because of the use of the hall Friday night and the impossibility of getting it in readiness in time for the luncheon.

ARE YOU A WOMAN?

Women suffer more than men from far-sight. This is probably due to their spending so much time indoors in work requiring near vision. Neglected this will cause untold agony, nervousness and at times a total breakdown. Every woman should have her eyes examined to see whether or not she needs glasses.

BY the use of temporary glasses young people often avoid the use of permanent glasses in later years.

When you buy a Sunday newspaper there must be some compelling force back of your buying judgment. You buy a Sunday newspaper (or you ought to, at least), in the same way you buy a suit of clothes. You want the best there is for the money.

THE LIMA SUNDAY NEWS

For 5c a Sunday

You get the most complete Sunday newspaper issued in Northwestern Ohio. A proud boast, you may think, but we believe the LIMA SUNDAY NEWS merits it.

America Pits New Wheat Against Bolshevism

One lone American, a man whom thousands of you probably never have heard of before, may knock the bottom out of Bolshevism. His name is Julius H. Barnes, and he is neither political spellbinder, Socialist soap-box spieler nor ambassador extraordinary to the courts of Omsk, Popocatpetl, Timbuctoc or Oshkosh. He is an American business man whom Uncle Sam has designated as the new federal wheat director of the United States of America, which means, in plain words, that Julius H. Barnes is pretty much the world's best bread man. And since the hunger germ has been found, and it is held to be the basic cause of Bolshevism, it may be Mr. Barnes is the man after all to silence the Red Guards' machine guns with batteries of long American loaves—bread "like mother used to make," all nicely coated with creamy butter and maybe another layer of good old made-in-America apple butter!

The Boys and Girls Page, always an entertaining feature for the younger members of the household runs true to form Sunday.

Sports, theaters, financial, telegraph and cable news are all taken care of as they should be.

The world is brought to your reading table, with high class reading and entertaining features to make it well worth your while to select.

A few reasons why "THE PEERLESS GROCERY" can and does sell high grade groceries cheaper than the old-time credit store: Our buyers are in touch with all the markets all the time, and know when to buy, and how to buy. At the same time they take advantage of all discount. Then these goods are shipped direct to us and sold over the COUNTER for cash and carried away by the purchaser. Thus we save on the first purchase, then the expense of handling, then the middleman's profit, then the time and expense of bookkeeping—and at last the loss on uncollectable accounts. The saving of all this is naturally a saving for our patrons and appreciated by them. That's why we are successful.

FIRST NC PLANE, ALTERED, IS SUCCESS

The N.C.-1, first of the giant sea-planes designed by the U. S. navy to attempt the trans-Atlantic flight, has been altered considerably since she was first completed. These changes increased her speed and lessened the power needed to carry her off the water and into the air. With the N.C.-3, she made the trip from Rockaway, L. I., to Trepassey Bay without mishap.

HIT FATHER-FINED

Son Blames Drink For Acts—Sister is Struck

J. F. Mainpa, 23, of Detroit, Mich., was arraigned in police court Friday morning, charged with assault and battery in that he assaulted his own father, Joe Mainpa, 55, and struck his sister, at 1124 Forest avenue. He was fined \$25 and sentenced to 30 days in the Toledo workhouse.

When the case was first reported to police Thursday evening it was understood, police say, that the father had been killed, but police arrive on the scene to find that he was alive, although unconscious. Mainpa claims that he had been drinking throughout the afternoon with his father and didn't remember the affair.

PEDDLERS AND CANVASSERS GET NO WELCOME IN LIMA

It is the object of the Lima police department at this time to rid the city of transient peddlers and canvassers. Many complaints have been filed with the department and as a result no permit are being issued to peddlers and canvassers.

Police officials ask the public to report any peddlers who may be seen. The complaints, it is said, were caused by misconduct of numerous canvassers who have been given permit to work in this city. Any peddler will be dealt with by the police.

OHIO POSTMASTERS OPEN CONVENTION AT COLUMBUS

COLUMBUS — Constructive criticism of service for business men and others is expected to be one of the features of the annual convention of the Ohio Postmasters' Association here Friday and Saturday.

"This is the first time the bars have been let down by any association in the United States," said Forrest L. May, Dayton postmaster, president of the association. "We aim to give the best service possible

Acids In Stomach Cause Indigestion

Create Gas, Sourness and Pain
How To Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach. Inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

and if anyone sees where improvements can be made let them come forward. We especially invite business men and chamber of commerce." Speakers are to include First Assistant Postmaster General John C. Koons, Governor Cox, Senator Pomorene and officials of the national postal organization. A banquet will be a feature of the meeting.

SAVE YOUR TEETH FROM PYORRHOEA

Before They Loosen and Fall Out—Tender, Bleeding Gums Are Warning Signals of Dangerous Biggs Disease. How to Treat at Home.

Don't loose your teeth from Pyorrhea or Biggs Disease. It's unnecessary now. There is no reason why anybody cannot have good firm teeth and healthy gums and be free of the humiliation of sore, diseased gums and unsightly, decaying teeth.

You needn't have your teeth pulled or wear false ones. Simply go to J. F. Vortcamp, Thompsons Drug Store or any local druggist and ask for one ounce of Epithol—remember the name, E-P-I-T-H-O-L, and use it as directed. This is the prescription of a famous New York dentist and it seems to work like magic on loose teeth and sore, tender, inflamed, receding, shrunken, spongy, bleeding or pus-discharging gums. Teeth tighten and the gums grow sound and healthy and the bleeding pus discharge soon stops. Both dentists and users are amazed at the wonderful improvement it brings so quickly.

All the druggists named above dispense Epithol on the positive guarantee that unless it gives satisfactory results the money paid for it will be refunded. This makes its trial a safe and easy matter and certainly proves its value.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburger Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

When a Girl Marries

By ANN LISLE

"You've found her!" murmured Terry in a voice that crumpled a little around the edges.

But the crumpled voice righted itself into a clear, quiet tone that clamped the lid down on the boyish shout Terry probably wanted to give.

"Come on—let's go to her. She's all right, you say? Great! Wonderful! You found little sister Anne. I knew I could count on you. Where is she? Why did she run away? Does she want to see me? She's all right, you say."

"Where'd you blow from, Terry, old son?" broke in Jim's voice, jovially; for Jim never gets so deeply absorbed in himself that he cannot respond to the sheer, big, fine loveableness of Terry Winston.

"A late train from Washington," replied Terry. "When I couldn't find you, I tried the Sturges girl and Tony and Vee. But this seemed everyone's night out. So—on the off chance that you'd blow in for a bit of sleep, I camped down here. May I come up and hear about Betty?"

"Up you go, lad," said Jim with the warm, sweet smile that wins him the love other men have to work for.

Terry jiggled his way into the elevator and across our living-room. I kept thinking what a lot of good it would do him to throw up his cap with a wild hurrah or two, for no tea-kettle would be expected to stay serene with its snout corked up. Still Terry managed somehow, without letting off steam.

"Tell me," he said in a voice so low and tense that I only knew what he said because I knew he'd say it.

I gave him Betty's note. His eyes galloped over it—then slowed down and reread it.

"You might tell me," said Jim with sudden interest as he lighted a cigarette and offered Terry the same service.

Terry shook his head, looked at me for permission and read Betty's note aloud. Then he tucked it into his blouse. I could have hugged him for the quiet way he took possession of it.

"Now the rest of the story, please, little sister," he said quietly. So I explained to him how Virginia had sent for Anthony Norreys, and how he had stimulated my memory by questioning Virginia about where she first met Betty. Then I told of my recollection of my own first meeting with Betty at our honeymoon inn, of Miss Moss, and how through her we had traced Betty to Greyfriars Hall.

As I began to speak I turned my eyes from Terry to Jim because it seemed indecent to watch the utter devotion in Terry Winston's eyes—remembering how he had written that if only I'd find Betty safe and well he'd "be willing to stand the gaff" if she sent him about his business. I couldn't stare at the great love speaking through Terry's eyes while I wondered—wondered what Betty would do with that love. So I turned to Jim.

An amazing set of emotions was working its way across his face. He had a look of startled admiration, and he interrupted me once to exclaim:

"Well, of all things, Betty loves you! And she asks me to remember that you're a delicate, gentle little

princess. Betty recommended you to me."

Later his amazement took a new form.

"Terry, what do you think of our little Sherlockina Holmes. . . . Our Anne getting on the track of the little Moss?"

"Anne's a wonder. You always knew it," replied Terry looking at Jim inscrutably for a second, and then beginning again the striding up and down the room with which he had punctuated the greater part of my story.

Jim looked more amazed than ever, and rather proud of the "treasure" (!) he had discovered for himself.

Suddenly Terry's strides crystallized into the need of striding somewhere—nearer Betty.

"Let's call up! Information and see when the next train goes."

"I'll do that," volunteered Jim.

Then I had to tell parts of the story over again to Terry and to assure him all over again that I felt certain Betty was all right. And after a five-minute struggle with the railroad information Jim reported that the first train for the stop nearest to Greyfriars Hall left at eleven—ten the next morning and arrived at two—forty—that it was met by the bus from the Hall in time to get us there at about half-past three.

Terry actually groaned.

"Your railroads! And of all the blooming bad luck my car's clean out of commission. We'll have to see about hiring one at once."

"Oh, that's all right!" I cried. "Anthony Norreys' car is to be in readiness. We were just waiting to hear from you!"

"Good old Tony!" beamed Terry. "I'll be off, then, and let you folks

get some sleep."

So he said good-night and left us.

"And now to bed," I murmured sleepily. "And now—to talk about your friend, Anthony Norreys!" said Jim. His eyes frightened me.

WAR TRANSPORT COST \$70,000,000

Expense of Carrying U. S. Soldiers Overseas is Estimated

WASHINGTON — It cost \$35 to carry each American soldier to France and \$60 to transport each ton of supplies or war material sent them according to official estimates Thursday.

Two million men were sent overseas at a total cost for passage of about \$70,000,000. British ships carried about 51 percent of these men.

A total of 5,000,000 tons of food and equipment was sent to France, 6,000 pounds for every soldier—at a transportation cost of \$360,000,000.

Foreign ships carried 600,000 tons of this material which means a \$36,000,000 freight bill for the United States to pay.

100,000 AMERICANS TO STAY IN OCCUPATION ARMY

WASHINGTON—An army of occupation of not more than 100,000 will be maintained in France, according to army officials Thursday, but not for long.

With the release of the fourth and fifth regular army divisions for early convoy, there are left but three divisions in France not yet assigned to early convoy. These are the first, second and third regular army divisions. The fourth and fifth divisions are in Germany, but are preparing to come home.

WRIGHT AVIATION FIELD IS ORDERED ABANDONED

WASHINGTON — Abandonment of the Wright aviation field at Dayton, Ohio, is called for under present war department plans, it was learned Thursday.

The war department probably will utilize the un-named fields near the Wright field at Dayton.

Possibility of floods, it was said, has much to do with the abandonment of the fields. The department, it was understood, will make no further use of the field after its value as a storage station has ceased.

CLAUSE IN FOE TREATY NOT OF U. S. INVENTION

PARIS.—The clause in the German treaty which provides it shall become effective for the first three powers signing it, was not an American invention, it was revealed Thursday.

While it reacts against the United States, requiring early ratification by the senate to avert sacrifice of American business interests, it was adopted by the "big four" at a time when a certain nation was making violent gestures toward withdrawal and another was showing marked sympathy.

NEW BAKERY IS OPENED; J. W. SHAW IS MANAGER

An innovation in bread baking was introduced in Lima yesterday when the Ohio Federal Bakeries company, opened a branch at 126 west Market street.

The Federal system is very much like home baking in process. The raising is done naturally as the housewife does instead of being forced artificially. The large rotary ovens which are to be seen thru the window can be heated in 15 minutes and 80 loaves of bread can be baked every 40 minutes. Only the highest quality of materials and ingredients are used.

E. H. Millar and P. H. Herrick of Chicago, are here for the opening. J. W. Shaw of this city has been secured as the resident manager. The Federal System of Bakeries has stores and bakeries all over the country. The Ohio Federal Bakeries is establishing seventy-five in Ohio of which twenty will be operated by themselves.

AMERICANS NOT SACRIFICED NOV. 11, SAYS MARCH

Army Chief Replies to Questions on Fighting as War Ended

WASHINGTON, D. C. — American soldiers were not needlessly sacrificed on the morning of Nov. 11, 1918, the day of the armistice in the great war, according to Gen. March, chief of staff of the army, who based his statements on the subject on a report from Gen. Pershing.

The senate committee on military affairs has been planning an investigation of reports that American troops were slaughtered needlessly on the day the armistice was signed.

Previous to this decision Harvey's Weekly instituted an inquiry into such reports and appealed to Senator Chamberlain, then chairman of the committee, in an open letter. Senator Chamberlain consulted with Gen. March on the subject and has received from him a reply to a series of questions, as follows:

1. Were any United States soldiers killed in the fighting in France after the order to cease firing at 11 a. m. Nov. 11, when the armistice went into effect?

Conclusions: No cases are known or any United States soldier who were killed in the fighting in France after the order to cease firing at 11 a. m. Nov. 11, when the armistice went into effect. Probably there were no such casualties. In any event, they could have occurred in isolated cases only.

Messages of condolence have been received from President and Mrs. Wilson and from prominent persons in many countries.

ARGUMENTS IN FORD CASE LONG DRAWN OUT

MOUNT CLEMENS, Mich. — No evidence was expected to be taken at Friday's session of the Henry Ford-Tribune libel suit and the second week of the trial was due to close without having heard a witness. Friday was the final session of the week.

Hopes went glimmering when Attorney Murphy, second attorney for Ford to argue the brief asking a limit on evidence, did not conclude his arguments Thursday afternoon, but extended them until Friday day will follow Murphy, so it is more than likely these arguments will

take up the entire day. morning. Another Tribune attorney. SHOCK PROOF SEATS CHICAGO—Michigan Boulevard

SOCIAL UNREST MENACES SPAIN

Country is Now Threatened by
Organized Anarchy Says
Writer

(By WILLIAM PHILIP SIMMS)
PARIS—News coming out of Spain is pessimistic. A general unrest hovers over the whole country, now manifesting itself in the form of a strike, again as a "separatist" movement and again as plain revolutionary.

I have just finished reading an article in "L'Information" signed "Homen Christo" and the picture he holds up, if a true one, does not offer much encouragement as to Spain's immediately future.

"Each day," he declares, "it is announced that the crisis in Spain has come to an end. But the day after the situation appears to be again at high tension."

"It is perfectly evident that a social cataclysm menaces Spain. Popular agitators invoke the question of Catalonia, that of Morocco, or the high cost of living, or the claims of the working people. But the trouble is more serious than that; it is a trouble ancient and deep.

"For ten years past each succeeding government has been disinclined to stand up and face squarely the difficulties which they have been called to power to solve. In order to stay in office they have temporized, used various dodges and employed all kinds of dilatory measures, avoiding as long as possible any clash with public opinion. These politics are not without its value, but it has the disadvantage of piling up the debt and its terrible interest as time goes by.

"This absence of a real guide to public opinion, this lack of firmness on the part of the different ministries, has but served to aggravate the general unrest and finally the public in its worst determination. And unless some statesman worthy of the name intervenes, the triumph of that 'organized anarchy,' which from the confines of Africa is wending its way towards the Mediterranean, will be certain."

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of cerate white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless and never hurts.

CUTICURA HEALS BABY'S ECZEMA

On Back. Spread on Face and Hands. Very Much Inflamed and Itched.

"When our baby was about four months old a small spot of eczema appeared on his back. It spread over his face and hands and became very much inflamed, and formed a scaly dry surface over his face. Apparently it itched, for the child was very restless and the eruption was disfiguring.

"We decided to try Cuticura. About four cakes of Cuticura Soap and two boxes of Ointment healed him." (Signed) Mrs. D. E. Hensick, 1915 Fillmore St., Topeka, Kansas.

Make Cuticura Soap and Ointment your daily toilet preparations.

Do not fail to include the exquisitely scented Cuticura Lotion in your toilet preparations. See every where.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder outers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your system with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your house clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

NIGHTIES ARE HIT BY LUXURY TAX LAW, TOO

NEW YORK.—Good Morning. Have you paid your nightgown tax? Yes, the nightie-nightie is a luxury and local tax collectors are being bombarded with requests for information, down to the barest details. But, it should be explained, the nightgown tax applies only to the five dollar kind. The difficulty is that nighties costing less than that are practically obsolete. Anything under five bills, according to author-

ities on the subjects, is of ancient Gothic design, square cornered, canvas material, plain white or vanilla in color, turned out in lots of a thousand at a time by the simple process of taking a bale of sail cloth and stamping out a hole for the neck and shoulders.

MUST PAY \$1,000 TAX TO SELL NEAR-BEER IN OHIO

COLUMBUS—All those who sell near-beer in Ohio are subject to the Dow-Aiken \$1,000 tax, Frank S. Evans, chief inspector of the state liquor license commission said Thursday. Evans said that all drug stores which have in the past sold near-beer and all places selling near-beer after May 27, are liable for the \$1,000 tax under the laws of Ohio.

"Cases against those who have sold near-beer in drug stores and confectionaries have never been pushed because we have been too busy handling places that have been selling intoxicating liquor," Evans said.

From Our Readers

editor The News,
Dear Sir:

I have noted recently, in the columns of the "News," several complaints from colored persons concerning their unfair treatment by the white people, and I deem it proper to make a reply to the latest letter, that of Earle A. Harrison, clergyman, who speaks about "race equality" among the citizens of Lima.

I know that the colored citizens have the same privileges as the whites in reference to our schools, churches, theatres, and street cars, as well as in politics. Therefore, I don't clearly understand what he means by "race equality," unless it be that he has not been invited as a guest to the social functions of the Bit-and-Spur, Saddle-and-Cycle, Gun-and-Rod, Blue Pencil, Pickwick, Lotus, Rotary and Lima Clubs.

Neither have I.
If he feels so deeply grieved over this seeming slight, I will suggest that he take the matter up with the house-committee of the Lima Club, the county chairman of the Democratic party, or the judge of the court of domestic relations.

ALEXANDER HARPER.

THIN, NERVOUS
FOLKS SHOULD
TAKE BITRO-
PHOSPHATE

Women Need It to Bring Pink Glow of Health to Pale Cheeks and Fore-
small Tell-Tale Lines of Age.
Men Need It to Make Strong,
Vigorous Bodies and
Steady Nerves.

Weak, thin people—men or women—are nearly always nervous wrecks, thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that the best nerve food is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve-builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

Weak, tired people regain strength and vigor, thinness and angularity give way to plumpness and curves, sleep returns to the sleepless, confidence and cheerfulness replace debility and gloom, dull eyes become bright, and pale sunken cheeks regain the pink glow of health. Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks. It is sold by M. M. Keltner in Lima and all good druggists.

CUTION: Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

PLAN ENFORCEMENT

WASHINGTON — Plans for enforcement of constitutional prohibition and for a world-wide dry campaign, will be formulated at the 19th convention of the Anti-alcohol League of America, to be held here June 4-8, dry officials announced Thursday.

A GRATITUDE SONG

For the Victory that's been won,
For the peaceful days to come,
For the work that's being done,
Let us give thanks!

For the bright outlook ahead,
For the hopes by which we're led,
For the tears that now are shed,
Let us give thanks!

For the chance for which we yearn-
ed,
For the gratitude we've earned,
For the lessons we have learned,
Let us give thanks!

For the problems we have met,
For the means to square the debt,
For the joy without regret,
Let us give thanks.

Today's Health Hints

THE HEALTH OFFICER TOMORROW

Don't mind a little difficulty
if it requires 40,000 medical off-
icers to give reasonably good
care to the health of 100,000
people, how many doctors, nu-
merous men, women and chil-
dren can one health officer properly
serve?

Answer: One hundred.
But the average American or
European citizen of 1914 to 1915
cannot see it that way, for the health officer in
charge of the public health con-
ducts his private practice as a
vocation and if he has any time
between patients, dabbles with
the administration of the public
health.

It is the motto: We
are not yet quite civilized, you
know. We still rely on the al-
manac and the neighbors to ad-
vise us about matters of health.
Oh, surely, we will go down in
our jeans for the necessary price
of protection against fire, for po-
lice protection, for maintaining
criminals, for maintaining jails
and for our children but isn't it
awful, Mabel when we are
asked to contribute a few cents
annually toward the protection of
our health? What's the use of
squandering real money on pub-
lic health protection and ask our-
selves, when any good neighbor
or almanac will tell us all about
it in case we do get sick or some-
thing?

The Great War, observers on
the inside assure us, is going to
bring about all kinds of revolu-
tions. When the troops get back
home the old order has got to
change and numerous desirable
reforms are going to be started.
This forecast has been made fre-
quently in the past few years. But
the Great War is about over, the
soldiers are trickling back home,
and the same old conditions ob-
tain.

However, as a Garaguan col-
league used to say, there is hope.

You Can Keep It.

THE ATTORNEY-GENERAL has ruled that all those who
have purchased distilled joy at \$3 to \$4 a quart and laid it
away for the thirty years have a perfect legal right to keep it
in their homes. Prohibitionists should not go into hysteria be-
cause some folks thinking they cannot get along with it, have
kept their lamps trimmed and burning. The results will
work out all to the ideas of the prohibs, for no supply can long
withstand continued strain and the very fact that there is no
more to be had, will automatically reduce consumption.

DRY STATES SHOW that drinking drops off rapidly when
the open saloon has been banished. Fully three-fourths of all
drinking has been of social foundation. Even the liberal
doesn't want to go thru darkened doorways, be led down into
cellars and with watches at the doors, be given a slug of
snake-bite cure. When liquors are not sold in the open, de-
mand declines in geometrical ratio. Five years from now no
one will think of offering a drink, and few will be asking for
it. The result will be that much of what is now stored will
remain stored because the owners themselves will get out of
the habit. Drinking like ninety per cent of everything else
in life, is Habit.

The Fatal Flight.

HAWKER'S DASH FOR IRELAND will probably go down into
history as a foolhardy attempt at the impossible. Hawker had
carefully weighed everything favorable and everything against
him. He was risking his life for eternal fame and \$50,000 in
cash. It was not such a foolhardy stunt taken at every angle.

LIFE IS BUT BRIEF at the very best, and many people live
too long for their own good. A few years or more on this side,
is like an atom compared with eternity on the other side. Take
it socially, in business, or in any view you may, and a decade
is about the span of years when any one of us are at the top.
When you are struggling up, it is time to dare as did Hawker
dare; in the brief period you may enjoy fame or fortune you
may as well know your reign will be brief; then comes the
downward period, the gradual descent which all experience.
Hawker gambled his life against quick fame and fortune, and
lost; many of us gamble our days and the days turn into years,
and then we have lost both fame and fortune.

Employment Outlook.

REPORTS FROM EMPLOYMENT BUREAUS over the coun-
try indicate that much of the expected idle labor is not devel-
oping. In fact, it will not be surprising when the summer
months get building well under way that fall will find a short-
age of labor.

JUST AT THIS TIME railroad equipment shops, as well as
railways themselves, are releasing labor, but much of this is
mechanical which is immediately absorbed. A machinist, a
carpenter, a painter in a railway shop is just as good a ma-
chinist, carpenter or painter on the outside. The returning
soldiers are finding little trouble in securing work, altho not
possibly at the high war wage existing at the time they went
to camp.

Blood Tests Made for Many Conditions
Is it true that blood tests are made

my tonsils removed and the specialist
seemed to think it was remarkable that
I had not had my blood tested. I took
it up with the family doctor and he

What is your opinion? (Miss E. R. L.)

'HOW MEN MAKE LOVE'

By June Elvidge

THE MOST PROPOSED-TO WOMAN IN THE WORLD

THE FALSE LOVER.

Sad is the fate of the girl whose
lover proves false!

Suave and plausible he is at first,
with a ready tongue and explana-
tions by the dozen for any inatten-
tion or false move. He is of the type
that has become familiar as the "spy"
type.

He is too suave, too utterly pleas-
ing, too desirous of making himself
"solid." Look into your lover's
eyes! The eyes are truly the win-
dows of the soul. If a man can look
into your eyes while he tells you he

loves you, you will usually know
whether you can trust him or not.

A man's real nature, like a wom-
an's, lies under the surface of things.
To see beneath the exterior and find
the real man underneath is the task
of the girl who would trust her life
in the keeping of a man. On her
choice her future happiness depends.

She should look well to it that the
man in whose keeping she places
her future can bear the scrutiny of
her eyes and can answer her ques-
tions with the ring of truth and sin-
cerity in his voice.

CONFESSIONS of an EVERY DAY WIFE

BY IDAH M'GLONE GIBSON

IT IS DESTINY.

Each time Theo stayed away all
night meant a good crying spell for
me. And my face was swollen
from tears most of the time.

I never weep in public; in fact,
I have never even let Theo see me
cry more than a few times, but the
tears and sobs will come when I am
left alone and disregarded by my
husband.

I think the neglect of a husband
is the deepest hurt in married life.
There is always a surprise about it.
At least, I never get used to Theo's
treatment.

He seems to have gone back com-
pletely to the old careless life. It
is weeks now since I have seen even
a gleam of that soul which he show-
ed to me in his letter from "over
there."

Sometimes I am afraid we
have glorified our fighting men too
much. No one can be a hero all the
time. A great crisis comes, and
we meet it bravely. Then our
friends proudly place us on a pin-
nacle, forgetting that is very hard
to stand on lofty places.

For a little while I did not read
the newspaper clipping Theo had left
me. I stopped to think of the
strangeness of it all. The editorials,
written apparently for the public,
but in reality for me, should come in-
to my hands through my philander-
ing husband was surely a queer coin-
cidence, and at moments I felt it was
poetic justice. The editorials surely
were from my unknown playmate of
the park and the duckling.

Then I settled down in the pil-
lows, turned on the electric light
beside my bed, picked up the clip-
ping and began to read. The edi-
torial was entitled.

KISMET

"Just what part fate plays in the
ordering of our lives is a very inter-
esting conundrum which has not
been answered by mortals as yet.

"We are essentially egotists, and
we like to think that we are not only
captains of our souls, but the arbi-
trators of our lives.

"Sometimes, however, some of us
yield to an impulse which takes us
so far out of this every day exist-
ence that we almost decide to simply
follow when Fate seems to beckon.

"Conventionality is humanities
slap in the face of Fate. While
Society has made certain laws which
for instance, must govern personal
introductions, there is not one of us
who cannot probably think of some

friend or acquaintance that has been
made in the most unconventional
way—a friend of whom we think of-
tenser than any of those with whom
our lives are thrown daily.

"The writer has become convinced
that it hurts no one to smile at a
stranger, to give him the little cour-
tesies which we usually keep for
those to whom we have been prop-
erly introduced.

"Obviously, such a course might
lead to complications, but even the
most conventional introductions of-
ten lead to the most intricate com-
plications.

"We place so much stress on
names. If we might meet, and per-
haps pass, as has been picturesquely

described by some poet, 'As ships
that pass in the night,' how many
delightful moments we might enjoy
which we must now forego.

"To have a pleasant conversation
which will enrich one's memory for-
ever, it is not necessary to know
more about a person than is revealed
in the passing moment. We may
never know the name of the person
whom Destiny thus presents, but the
face, the form, little tricks of man-
ner, the ghost of a smile where a
dimple lingered will haunt one for-
ever."

"He has played fair," I thought
as I read the clipping. "He prob-
ably recognized my car and just left

BULLY summer wraps for sultry nights are the Spanish shawls now coming into fashion's favor. HUGE SHELL COMBS, TOO

By MARGARET ROHE

Adele's become so Spanish. She says "si, si" for "yes." Mantillas, shawls and huge shell combs compose her daily dress. But when large Spanish onions shine on right along, I really think she's going it a little bit too strong.

NEW YORK—That insidious Spanish influence is again swaying us sartorially. We are enmeshed in the cobweb stitches of the filmy lace mantilla, all wrapped up in the gorgeously embroidered silk fringed shawl and have bowed our heads beneath the carved glories of the huge shell comb.

Though the recent Spanish opera company at the Park Theatre has closed its season, owing to the musician strike for a weekly wage, it is yet the open season for Spanish dressing that promises even French dressing a bitter race for popular favor.

Those gaudily gorgeous and hec-tically hued embroidered Spanish shawls, whose long fringed edges wrap the feminine elite of Spain on gala bullfight days, make perfectly bully summer evening wraps, to be worn at the end of a torrid day instead of at the end of a torrid day. Don't by any chance make the fatal mistake of wearing a Chinese em-broidered shawl and fancying your-self espagnola, however. To be sure there is little difference in the brands at a discreet distance, but a close-up will reveal a subtle differ-ing of texture and design. The greatest difference of all, of course, is that the true Spanish shawl never even saw Spain, but is manufactured in the Philippine Islands. Con-verted into negligees, these brilliant coverings are simply stunning and bring out the Carmen in even the demurest of the species. It only needs a sliced Spanish onion for atmosphere and a guitar and casten-et duet on the Victrola to make the Andalusian delusion quite com-plete.

Then there's the characteris-tic Spanish mantilla, black or white, of exquisitely fine and silky hand-made Spanish lace—some of filmy delicate design and others more strikingly ornate and of a larger mesh. These we are flaunting, not as the Castilian beauties over their high combed coiffures and ivory throats and bosoms, but over our shimmying, shimmering shoulders, in the for most scarves, a oimpera-

GERMANS FLOCK TO UNIVERSITIES

Officers' Careers Cut Short, Seek the Professions of Peace

BERLIN—German universities are more crowded with students now than any time in history, according to Dr. Reinhold Seeberg, president of the University of Berlin. The revolution has brought a yearning for uni-versity training.

"Thousands of men who have been four years in the war crave studies, especially in scientific subjects, which are stable and a relief in this time of unrest," President Seeberg said. "The most remarkable addition to our student body comes from the numbers of officers who have had possibilities of military careers cut off, and who are turning to law, medicine and economics."

"Most of the students fresh from the war or army service have a hard time for the first two or three weeks readjusting themselves. But after that they recall their former training and knowledge and go at their work with enthusiasm."

Seeberg says the expected flocking of women to the universities has not come. Educators figured Germany would gain enormously in women students, due to the fact that almost two million men fell during the war, and there are just that many extra women to choose their careers other than marriage. So far the women haven't turned to education, tho it is students to study law, medicine, political economics and modern sub-

jects rather than science or art, says President Seeberg. This is causing the universities to revise their cur-riculums from classic subjects to practical studies.

German universities hope the sys-tem of exchange professorships can be revived, says Dr. Seeberg, who not time yet to judge permanently.

There is a tendency for German adds, "But we are not in the position to make the first step, with the world hostile to us. But we hope the in-itiative will come from American uni-versities, and that we can re-es-ta-blish friendly and normal relations."

"The university is an institution that has suffered from the war less than anything else—I mean, in the light that it has to readjust and re-find itself. German universities were always strictly cultural and were non-political. I hope this cultural neu-trality will be the means of getting nations together again on a friendly basis. We must make conditions normal again."

"Educational Germany is looking for an American victory over the world. We feel that Americans and the Wilsonian principles are the only means of preserving Europe from militarism. It is a critical hour for American ideals, and for the world Germany does not trust France nor England, but we do trust America, and we hope she can lead Europe to a peace of understanding."

Catarrhal Deafness and Head Noises

TELLS SAFE AND SIMPLE WAY TO TREAT AND RELIEVE AT HOME.

If you have catarrhal deafness or head noises caused by catarrh, or if phlegm drips in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be en-tirely overcome in many instances by the following treatment which you can easily prepare in your home at little cost. Secure from your druggist 1 ounce of Paracetamol (Double Strength). Take this home and add to it 4 pint of hot water, and a little granulated sugar; stir well and dissolve. Take one tablespoonful four times a day. An im-provement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of this treatment. Loss of smell, taste, defective hearing and mucous dripping in the back of the throat are other symp-toms which suggest the presence of catarrh and which may often be overcome by this efficacious treat-ment. It is said that nearly ninety per-cent of all ear troubles are caused by catarrh and there must therefore be many people whose hearing may be re-stored by this simple, harmless, home treatment.

SOCIETY AND THE CLUBS
BY MARGARET SIMPSON

IN SUSIE SMART'S DAILY MAIL

To Wash Away Those Wrinkles and Crowsfeet

Mrs. Edward P. Kieley entertained the Victory club Wednesday evening at her home on West Wayne street. The living room in which the tables were arranged for play was made attractive with baskets of spring flowers. Mrs. James Kelly was awarded the club prize and Mrs. R. W. Murphy the guest prize. The hostess was assisted in the serving of a dainty luncheon by Miss Norma Kelly.

Those enjoying the hospitality of Mrs. Kelly were: Mrs. D. Dimond, Mrs. P. Rumiger, Mrs. John McNamara, Mrs. T. Shannahan, Mrs. W. Zink, Mrs. Harry O'Brien, Mrs. W. Joy, Mrs. I. Shannahan, Mrs. J. Kelly, Mrs. A. W. Rummell, Miss Catherine Conway, Mrs. W. Hamstutler, Mrs. L. J. Hanley, Miss Margaret Henry, Mrs. Vincent Connelly, Mrs. W. Herring, Mrs. W. A. Wagner, Mrs. H. J. Ellerman, Mrs. R. W. Murphy, Mrs. T. Madigan, and Mrs. A. O. Wagner, of Detroit.

CHERRY RED SMOCK IS HAND PAINTED

By ELOISE.

Many, many years, centuries in fact, the peasants in France have worn the loose garment known as a smock and no one challenged their right to a monopoly on that garment.

Then some time in the last century artists—sculptors and painters—began wearing this type of garment in their ateliers and studios until that shapeless, comfortable garment came to suggest all that one associates with French studio life. It was not unnatural that artists on this side of the Atlantic took to the smock as a matter of convenience as well as because of association.

Next the smock was borrowed for rather extreme garden frocks. And it was considered really extreme when it first was worn out of the studio. But it became popular and it was featured as a sport garment and then every one went about in smocks.

Then the blouse that extends below the waistline came into being. It supplants to a certain extent the old time blouse that is tucked into the waist of the skirt. And so far from appearing extreme or outlandish, sloopy or graceless the type of garment known as the smock as the most natural thing we could don for garden wear and sport wear and wear about the house.

So the smock is being revived for summer, and the youthful maidens of the country are rejoicing. They do look so "Greenwich village like" know. This one is a beautiful cherry red crepe de chine which is boldly stenciled in yellow and grass-green shades. The white pearl beads outlining the round neck is an added note of charm.

Dear Miss Smart: (1) Sometime ago I asked Dr. Bradford some questions and he hasn't answered them yet. Why doesn't he answer? I addressed the envelope Dr. Bradford, Care Lima Daily News, is that his correct address?

(2) Can you give me a recipe for a good vanishing cream for the face?

(3) Can you give me the recipe for Pond's Vanishing Cream? I want a cream that will make the powder stick on the face.

(4) My face seems to be harsh and getting rather brown, what can I do to make my skin soft and white?

(5) What is a good lotion for the hands?

Thanking you, I am
A Reader.

Ans. (1) You had the correct address. Your question will be answered, but remember that Dr. Bradford only answers two questions in his column each day and he receives many letters, which are answered in the order in which he receives them.

(2) I can give no satisfactory receipt for making a vanishing cream. Many good creams can be procured at any local drug-store on their recommendation, and at small cost.

(3) No.

(4) Bathe your face in buttermilk each night and allow it to remain on the face until morning.

(5) A good lotion for the hands can be made by obtaining two ounces of rosewater, one ounce of glycerine, and 15 drops of tincture of benzoin at any drug store.

Dear Miss Smart: Please give me some names that would be proper for a club of fifteen ladies ranging in age from 45 to 60. We take our own needlework for about four

hours every two weeks on Thursday. Go from one home to another. Thanking you in advance, C. E. P.

Answer: "The Fort-Nightly Club," The Thursday Needle Work Club, or you might reverse the word "Needlework" and call the club the "Krow-Eldeen" club.

My Dear Miss Smart: Would you please publish in the columns of your paper a good recipe for "Chop Suey"?

Thanking you kindly, I am yours sincerely,
"INQUISITIVE."

Answer: Wash and dice six small bunches of celery, and ten large onions, and cook separately until tender. Have ready an equal amount of fresh pork cut in small pieces and cooked. Heat a cup of olive oil, add the celery, onions, pork and a can of mushrooms. Season with Salty Sauce and bring to the boiling point. If not thick enough, add enough cornstarch dissolved in water to thicken. The Salty Sauce can be procured from any local Chinese dealer.

ARGUMENT FOR BEER WILL BE MADE TODAY

NEW YORK — Elihu Root, representing the Jacob Hoffman Brewing Company, was to appear in Federal Judge Mayer's court Friday to argue in favor of an injunction against enforcement of the war-time prohibition law against beer. The brewing interests claim that 2.75 percent beer is not intoxicating within the meaning of the act. The United States Brewers Association is interested in the suit. Upon the decision rests, in a great measure, the question of whether the law will be enforced against 2.75 percent beer.

If your face is disfigured with wrinkles, no matter what the cause, you can quickly dispel every line, even the most obstinate, by using a simple home-made wash lotion. Merely dissolve an ounce of powdered axolite in any quantity of water. Rub the face in this, and presto!—you scarcely believe your eyes when you look into a mirror and behold the marvelous transformation. The remarkable astringent action of the axolite so tightens the skin, wrinkles are literally pressed out. Best of all the lotion also has a healthful action, which tends to strengthen and tone up the weakened tissue, and add to the beauty of the face. Use this once a day, and you will find the most effective skin treatment. The treatment itself costs no more than one guess the secret of your increasing youthful appearance.

EVEN SPORT SUITS
BOAST OF VESTES

By FLOISE.

This is a most attractive sport suit of white puffed silk and not to be outdone by a woolen suit it, too, displays a tablier vest. The vest is a brilliant green, but it would be very effective in rose, yellow or purple. A green milan sailor with checked ribbon band completes the outfit costume.

In regard to the waistcoat or vestee it is going to figure prominently in the summer suits and frocks.

For very warm weather wear the thinnest sorts of waistcoats are sold. Some of them are made of fine voile, patterned in small squares. The voile is in tan or gray or some color. Others are made of organdy, in blue, pink, deep rose, lavender, gray, maize and strawberry.

Some of the waistcoats have frills around the neck that are really as all-covering as charity, as they make the waistcoats seem a real part of the frock with which it is worn. With this type of waistcoat frilled cuffs are also sometimes sold.

Merrily On, Goes Suit and Wrap Sale

Never in the history of the world have people so readily responded with their dollars for the aid of stricken humanity as they have in the last few years.

The Salvation Army efforts for \$60,000 for a home in the past few days is but another example and indication of the better world in which we are living.

These wonderful, unpretentious salvagers of human souls and bodies, ask for praise and credit only from their Maker for whose cause they are serving.

They give liberally—and the practical minds of men can appreciate and sympathize, as is shown by the outpouring of dollars to help the cause.

Georgettes With Dashing Figures Have Just Fluttered In

Sheer, crisp beauties they are, all aglow with exquisite color harmonizes that set the hearts of women atlingling.

The very first one noticed in the exhibition was of rather light tan background with shadowed flowers intermingling with gorgeous sapphire figures.

In another the farground was copen on which repose lovely figures of deeper blue brought to life by the gold in adjoining flowers.

Besides the tan and blue, there were noticed backgrounds of black, and white, and purple among these new georgettes. 40 inches wide.

Marked Change of Price Complexion In Wool Jersey

Price complexions change at times for one reason or another just the same as the complexion of nature's beauties fade and brighten with the coming and the going of the sun.

In this particular change of price, it seems that the sun is growing bright—for it is now possible for our patrons to secure the finest 56 inch wool jersey in tan, grey, taupe, purple, copen, Blue Devil, robin's egg, green and burgundy at the very special price of \$3.75 per yd.

SECOND FLOOR

New Georgette Waists at \$5.95

They were caught sight of as they were coming so crisp and fresh from their boxes ready to be placed in stock.

The first two were in flesh and white with circular collars formed from 3 circles of oval lace. Finished in front with cord which suspends between two rows of tucks.

Next was white with roll collar of self material liberally bordered with filet lace. Unique touch is added by bead balls used in front instead of buttons.

Another had fine tucks running crosswise and a sailor collar.

And such was the trend of their beauty through and through!

FOURTH FLOOR

Each Day Our Buyers Find It Harder to Get Rugs--and Easier to Sell Them

Fewer rugs are being woven today than there were two years ago, because of the strikes among the mill employees; the greatly decreased number of hours of labor; great scarcity of high grade wool yarns.

As a result rugs of the higher quality such as we feature are terribly hard to get—and manufacturers claim that conditions will no doubt become worse.

Everyone with any thought whatsoever or purchasing rugs this year should select now to be assured a good run of patterns.

FIFTH FLOOR

Time to Choose Cretonne Is Here

The mind of every housekeeper flies to cretonnes as soon as the air takes on its first Spring tinge.

Balmy air spells housecleaning—and preparation of the front porch for the Summer.

During their housecleaning seige, women are covering indoor boxes, making bags, hanging draperies and the hundred and one other things for which cretonnes can be used. Outside they use this colorful fabric to make chair and swing backs and seats, pillows, etc.

Some lovely new patterns were just added to our stock a day or so ago that are unusually good.

MACARONI AND NOODLE DISHES

Mexican Macaroni—One cup of macaroni, one teaspoon of salt, one pint of cooked kidney beans, one quart of water, two cups of cream tomato sauce. Break the macaroni into inch pieces and cook in boiling salted water until macaroni is very soft. Drain and pour cold water through it. Make a cream sauce of two tablespoons of flour, two tablespoons of butter substitute, three-quarters cup of milk, one-half teaspoon of salt and one-quarter cup of strained tomato. Heat the milk until it is scalded and pour the mixture into the hot milk. Cook for five minutes, then add the strained tomato. Pour over the macaroni and kidney beans, which have been drained. Heat all together, stirring carefully in order not to mash the beans.

Noodles and Tomato Sauce—Cook two cups of dried noodles in plenty of boiling salted water rapidly for thirty minutes, then drain and put into a greased fireproof dish with two tablespoons of butter substitute, one and one-half cups of tomato sauce, one teaspoon of salt and one-quarter teaspoon of paprika. Sprinkle with cheese and bake.

Jellied Waldorf Salad—Into a lemon jelly with most of the sugar omitted stir chopped raw apples, minced celery and chopped nuts. Set to stiffen in a bowl and, for serving, turn out on a platter and garnish with a border of lettuce leaves with occasional spoonfuls of mayonnaise dressing.

Creamed Cheese Noodles—Two cups plain boiled noodles, one-half cup finely minced cheese, one cup medium white sauce. Add cheese to white sauce and combine with noodles. If desired the ingredients may be put in a baking dish, covered with crumbs and baked until

crumbs are browned.

GOOD TO KNOW

Sweetbreads—Considered by many to be the greatest of all meat delicacies are the soft, milky thymus glands of the young calf and lamb. They should have a generally clear appearance and should be a little darker than the fat of the carcass from which they are obtained. Liver—Good, fresh liver should be clear, bright and of a yellowish red color. Calves liver is much to be preferred to beef liver and pigs and sheeps liver are also used, the latter being much less expensive.

A Good Way to Raise Bread Dough is to set it on a cushion above a steam radiator, or in the absence of this, a good coal furnace radiator. But in summer use the following method: Place dough over a pan of hot water (see that the water doesn't touch pan), and the dough will raise in half the time. Renew water when it cools.

Two Ironholders attached with a long tape should be in every kitchen; when cooking throw this over the shoulders and you will never lack a towel to handle hot pans and dishes.

When Using Dry Cheese, instead of shaving it, put it through the food chopper.

TODAY'S BEST RECIPES.

Apple, Date and Celery Salad—Pare one large choice apple, quarter, core and cut into small pieces and squeeze over these the juice of half a lemon. Cut five choice stalks of celery in small pieces. Pour boiling water over half a pound of dates. Strain the water through them, skim to an earthen dish and dry in the oven. When cold cut each into four or five lengthwise pieces. Mix the apple, celery and dates together, then add a generous half cup of mayonnaise dressing and mix again. Serve on heart lettuce leaves.

Bean Soup—Two cups leftover

Its flavor is exquisite.

It is not denaturized, not de-caffeinated, not de-anythinged.

It is coffee—Perfect for human use.

It is the Real Thing. Try it for iced coffee—Instantly soluble in cold water.

SPORT SNAP
: SHOTS :

One of the biggest surprises of the early weeks of the big league season is the poor batting of Dode Paskert, ex-Philly star now with the Cubs. Dode made a sensational comeback with the Cubs last season and was counted on to help get the team away to a flying start this season. But he fell off so far in his hitting that Manager Mitchell benched him and put Turner Barber in center field. Barber failed to do much better, so Mitchell has a problem on his hands.

That Hal Chase is in good with the New York fans is shown by the fact that they are still pulling for him despite his failure to hit the ball as he was expected to. There is no thought in the minds of the Gothamites that Hal has slipped. They believe he is just in a big slump—the kind which comes to every star occasionally.

Heinie Zim has come back all right. He was chased to the showers twice in a week recently for speaking too emphatically to the umpires.

Tommy Griffith, Joe Jackson and Cy Williams were the first big leaguers to make twenty hits this season.

Our guess is that the Yankee fans speak harshly of Miller Huggins every time they read about Ray Fisher hanging up another victory for the Cincin club. He is going great guns for the Cincin.

NOTICE
COMMENCING MONDAY, MAY 19TH, BOTH OUR WOODLAWN AND BELLEFONTAINE PLANTS WILL BE OPEN EVENINGS. ROSE ZETLITZ CO.

Lima Athletic Club Mass
Meeting Tonight

A mass meeting of the Lima Athletic Club organizers and boosters will be held this evening at the Chamber of Commerce hall, Business College block.

Reports from the several committees appointed at the last meeting will be heard, which includes the membership committee, the committee on constitution and by-laws, and committee on events.

Application blanks for memberships will probably be ready for distribution, and it is contemplated to enroll a thousand members, as an initial move to a substantial foundation.

The Lima Athletic Club will mould its constitution after the same pattern as used by the Toledo Athletic Club, making only what changes are necessary to the local organization. H. E. Simonton, secretary, has had the matter up with the northern group and they are much interested and anxious to aid in getting the

Lima club firmly started. There is expected to be some lively athletic competition in the coming months between the two clubs.

Just what date the first special event will be held, to inaugurate and start off the Lima Athletic Club, has not been decided, but is to be settled at tonight's meeting, which makes it essential that all of those interested in the movement be on hand and voice their opinion regarding the date, etc.

The first entertainment of the club is to be one of extraordinary high order in the athletic line, and the high standard of excellence of the first show will be a pattern to follow during the future life of the club.

The meeting is called for 8 o'clock. Many interested out-of-town boosters will be here for the meeting, from the surrounding towns, who are expected to join the organization and make it a "Greater Lima" feature.

HERE'S THE DOPE
ON BIG BOXERS

H. C. HAMILTON

NEW YORK—There is small chance to draw a true line of comparison between Jess Willard and Jack Dempsey.

In the first place, the men are entirely different in style and temperament. Willard is slow, takes lot of punishment, and is not the heavy puncher that Dempsey is. He fights because that is his business.

Dempsey is fast, punches with pile-driving power and fights because he likes it.

Records considered as matters of prowess, show four men who have faced each principal in Tex Rickard's big bouts. They are Arthur Pelkey, Gunboat Smith, Charley Miller and Carl Morris.

Of the lot, there isn't one who could just with Dempsey, and Willard didn't stop one of them.

Pelkey and Willard boxed ten unsatisfactory rounds in New York, and there was no decision; he lasted less than a round with Dempsey in Denver.

Gunboat Smith, at that time, at the very top of his career, gave Jess a fine cuffing in San Francisco, although the Big Champion always has claimed the decision was wrong

This was a twenty-round go, and Dempsey met Smith twice, once getting a decision over him in a four-round bout in California and the second time stopping him in two rounds in Buffalo. Smith was floored nine times in the latter bout before he finally stayed down.

Charley Miller and Willard fought four rounds to a draw in California. It required less than a round for Miller to sleep when he met Dempsey.

Carl Morris and Willard staged a very tame bout in New York, the show going ten rounds. Morris once lost to Dempsey on a foul in six rounds, after taking a beating. The next time Dempsey gave big Carl the usual one round dose.

FANS RUSH TO
BUY TICKETS

CHICAGO—More than \$20,000 worth of seats at the Willard-Dempsey bout at Toledo were sold here the first day they were offered the public, it was announced by ticket brokers Friday. Practically all the seats sold were those priced at \$60.

After the first three hours, Ernie Young, agent, telegraphed Promoter Tex Rickard for an additional allotment of \$35,000 worth of pasted boards.

WIVES NOT COSTLY

CHICAGO—Arrest of Joseph Edwards here Thursday brought to a close an experiment of high finance extraordinary—support of three wives on \$100 a month.

ISAAC WALTON
OUTCLASSED

A new sport has been tried out at the reservoir. It is lassoing fish. H. E. Simonton says it is a great game, but to date has not been crowned with glorious success.

Altho he fished all day Thursday with a party of Limaites who brought back well filled baskets, "Si" had no luck at all.

"The croppies came to the surface and looked at me, but they wouldn't bite," he said. "One particularly large croppie hung around the boat so long that I thought he wanted to come aboard so I made a noose of line and dropped it over his nose. The line tickled him and he sneezed, throwing the line off his nose, or I would have had him."

Reports from the lakes and rivers show that the fish are in great numbers this season, and many auto parties make weekly trips to the fishing banks to bring home large lines of croppies.

Ringside Flashes

Gene Tunney, the light heavyweight batter from New York, who took the honors at the A. E. F. boxing tournament in Paris the other day, when diplomatic and military officials witnessed the championships of the army decided, is likely to fight Les Carpenter, before returning home.

Irish Patsey Cline, the Irish terrier of New York, is to stage a bout with Eddie Moy, a Pennsylvania nuxer of repute, at the Montreal Sporting Club next Monday night.

Frankie Mason had to lower his colors to Earl Puryear at Peoria, Illinois, Thursday night, when they went ten rounds in a slow uninteresting affair. Neither boy damaged the other, and neither was forced to the mat. Puryear won six out of the ten rounds.

Battling Lundy, of Toledo, who has been seen within the past few weeks in Lima, was considerably mugged up in his 6 round mill with Joe Burton at Jackson, Michigan, last night. He was totally outclassed. Artie Kaufman won by a shade over Frankie Berry of Milwaukee in the main go.

Pal Moore and Jack Sharkey are going to wallop each other in a fast grind at Racine, Wisconsin, next Thursday night. Sharkey will arrive in Chicago Monday, and is stated to be in fine condition, and confident of maintaining his record.

Jack Dempsey did his first boxing in his new training quarters on the shores of the Maumee river yesterday. He donned the pillows and frisked around the ring with Willie Doyle, a young lightweight who happened to be looking around the heavyweight's premises.

The gobs at the Great Lakes Training Station staged a big ring entertainment yesterday afternoon, when sixteen bouts were decided. While they were not championship calibre, they afforded the boys a lot of fun, and gave Lieut. Wilkerson, referee, an afternoon's job.

BOND ISSUE GRANTED

COLUMBUS—The state public utilities commission Thursday granted permission to the Panhandle railroad to issue \$20,000,000 in 15-year, six per cent bonds. The proceeds are to be used to pay for improvements since 1914.

Thursday's hero—Jack Quinn. He labored in winning fashion for the Yanks but the White Sox won 1 to 0.

Walter Johnson looked like winner over the Browns, but they brought up the big guns and pounded him out of the box for a 5 to 4 victory.

The tenth inning saw the downfall of the Athletics at Cleveland 3 to 2 being the finish.

Slim Love started the first game for the Tigers and trimmed the world champion Red Sox 5 to 3.

Every National League contest got lost in the flood.

IMPROVEMENT IS SHOWN
IN LABOR CONDITIONS

WASHINGTON—Slight improvement in unemployment conditions is shown by the weekly telegraphic reports of the United States employment service.

Out of 87 cities reporting, 15 show shortages, ten of which are in the south, 33 report an equality, and 39 show a surplus. New York, with between 125,000 and 200,000 out of work; Cleveland, with 30,000 and Pittsburgh with 20,000, are the largest centers of unemployment.

YANKS LOOK GOOD TO N. Y. FANS

BY H. C. HAMILTON
NEW YORK — In New York, American League fans will tell you the Yankees' jinx is in its death throes and that the team is about to wing away with the American League pennant.
Thursday the Yankees, facetiously referred to as a "murderers' row" by some of their trusting admirers, mauled a White Sox pitcher for nine hits and got nary a run out of the mess. The Sox, on the other hand, punted Jack Quinn for four hits and scored one run—the winning one of course.
There is a lesson in this for the baseball fan and it is that no team can hope to constantly win without speed. The Yankees are slow and will have lots of hard fighting to maintain a place at the head of the list in opposition to speedy aggre-

gations like the White Sox and Red Sox.
This, however, must not be taken to mean that the Yankees cannot win a pennant in their present make-up, for chances are they will come mighty close. They have hitting power and their pitchers are excellent. A hitting team as powerful as the Yankees can get along with less speed, than a lighter one, for it can rely on hit and run strategy with much success. On the other hand, a couple of speedy men injected into the line-up would make the task of that club so much easier it makes one wonder why something isn't done to reach that end.
Imagine what would happen if the White Sox or Red Sox had the punch of the Yankees together with their present strength along other lines. Also, imagine what would happen if there were a few base runners in the Yankee line-up.
As it is the American League is going to go galloping into the stretch with the age-old bloody finish. The Yankees, White Sox, Red Sox and Indians, it appears, are billed for a death grapple right on the threshold of the world's series.

ATHLETES TRY FOR OLYMPIC GAMES

CHICAGO, May 23.—Athletes who win places in the western conference meet at Stagg field here June 7, will practically be assured of berths on the America team that goes to Antwerp in 1920 to take part in the Olympic games.
This word was received here Friday by Avery T. Brundage, a title holder and president of the graduate managing committee, from Judge Barlow S. Weeks, secretary of the American Olympic committee.
Judge Weeks said, according to Brundage, that due to dearth of athletes on account of inactivity during the war, winners at Harvard May 31 and at Chicago June 7, can count on taking the trip to Belgium.
FT. WAYNE MAN FINED
Jack Larain, who claims to be manager of the American cafe in Ft. Wayne, was arrested Thursday night and charged with being drunk and disorderly. Larain was arraigned in police court Friday morning and at first pleaded not guilty to the charge but later changed his plea to guilty. He was fined \$10 by Judge Botkin.
DOUBTS CHINA SIGNING
PARIS—Wellington Koo, member of the Chinese peace delegation, declared Friday that the treaty will be signed by China only with reservations, "if at all." He said the delegation was still considering its course of action.

DRY FACTS

OHIO goes dry May 26 regardless of what action Congress takes on President Wilson's recommendation that war-time prohibition, in so far as it affects beer and light wines, be removed. This is under the state constitutional amendment, adopted by Ohio voters last November.
UNITED STATES, if Congress repeals the war-time prohibition law, will continue wet, as far as the sale of beer and wine is concerned, after July 1. Congress, as a war measure, ordered the sale of liquor stopped on that date until the demobilization of troops is completed.
If Congress fails to heed President Wilson's request the country goes bone dry July 1.
Whatever action Congress takes, the nation goes dry Jan. 15 under the prohibition amendment to the federal constitution, which was ratified by the 36th state—the last one needed—on Jan. 16, 1918. It becomes effective one year after that date.

U. S. WRITER IS ROBBED BY REDS

Correspondent in Russia is Held Up By The Bolsheviks

LONDON — Frank J. Taylor, United Press staff correspondent, who recently went into Russia, to investigate conditions, was returning to Berlin Friday, by the way of Finland after being robbed by the Bolsheviks. Two telegrams were received simultaneously from Taylor Friday. One forwarded from Terinjo, Finland, 10 a. m. Wednesday, said:

"Escaped Bolsheviks after being robbed of everything. Now in Finnish detention camp here."

Another, sent from Helsinki, Finland, 2 p. m. Thursday, said he had been released and was proceeding to Berlin.

Taylor, who was one of the United Press correspondents with the American armies until the cessation of hostilities, was one of the first American newspaper men to reach Berlin after the armistice was signed. He directed the Berlin staff in covering both Spartacist revolution and between times investigated the situation in Austria, Hungary and Czechoslovakia. He also was in charge of reporting the first meeting of the national assembly at Weimar.

About two weeks ago, Taylor obtained passes from Russian soviet government and left Berlin for Moscow. He went into Russia determined to tell the truth about conditions there. The first word received from him was contained in the two telegrams telling of his escape into Finland.

Short Shavings

Coming in from location away up in northern California, this little incident happened.

Ruth Roland and her company went into the dining car for luncheon. A small table just across from Ruth sat a ranchman. He ordered soup, a steak, dessert, etc., and sat back comfortably to

await service. As the waiter set the soup down, the train lurched and his thumb was gently laved by it.

"I don't think I want any soup," said the ranchman; "take it away."

The waiter brought the steak and was about to place it before the ranchman when a fellow waiter jostled him and almost upset the steak. As it started to slide on the plate the waiter seized it gently but firmly between the thumb and finger and pulled it back to safety.

"I've changed my mind," growled the ranchman. "Take that steak

away and bring me a coconut and a hammer."

Mrs. Hughes, wife of the Australian premier, is very fond of children and has a fund of anecdotes concerning them.

One she is fond of telling concerns a visit she paid to a certain elementary school in Melbourne shortly before starting for England.

Among the questions put by the mistress to her little pupils was the following:

"Supposing we had boarded a ship

miles due southwest, where should we be now?" the correct answer being, of course, "On the coast of Tasmania."

There was a moment of breathless silence, and then a tiny girl in the front row, who had just recently, it transpired, returned from a rather rough and stormy sea trip, piped out shrilly:

"In the cabin, ma'am, sick."
